¹Baseline BM required, otherwise collected when medically indicated.
²Baseline Germline required; 12 and 24 mo optional.
³For follow-up visits, current visits occurred + visits missed + visits pending + visits terminated = previous visits occurred + visits missed.

Visit Occurred: Any clinic data, QOL, or specimens collected. Data submitted table includes number of ppts with partial and complete forms/samples.

Visit Missed: No clinic data, QOL, or specimens submitted; no termination forms submitted; and visit window expired (> 60 days past visit target date).

Visit Pending: No clinic data, QOL, or specimens submitted; no termination forms submitted; next visit within (± 60 days of target date) or ahead of visit window.

Termination: Death, lost to follow-up, consent withdrawn, transplant, or A0.
